A Story In the war

Arilene Aguilar

One day in school I fell asleep during math class. Sometimes I do this because I don't get enough sleep at night. This was not like any other day. When I woke up I didn't recognize anything around me.

The people around me were screaming and yelling and I saw some people with blood and some without. I saw people with guns. Everyone around me has long colorful skirts, some of them have big shirts and shorts. I see buildings broken down to the ground and all the walls are all broken down. I wonder where I am? Someone grabs my hand and they ask where I'm from and who I am because I look more different than anyone else. He's worried because I have a different style he has never seen. He has a gun pointed to my head because he doesn't know who I am because I'm not from his town. “ De donde eres porque te vistes asi?”said Julio(Where are you from? Why do you dress like that?) Watching me sitting on the floor confused. “Yo no soy de aqui me puedes ayudar porfavor estoy asustada”I said(I'm not from here can you please help me i'm scared).” No se si te puedo ayudar porque no te conozco y no se que si te puedo dar confianza”. Said Julio. (I don't know if I should help you because I don't really know you.)

Julio was thinking if he should help because he's not sure whether he should or not. He stays staring at me, while thinking because he could tell by my face that I was scared and confused. He thought about it for another second and he gave in and he helped me up.” Quédate agachada porque las personas están en combate y están disparando, Dijo” julio (Stay crouched down because the people are in war and they are shooting their guns). We start running. While we’re running ,I trip on a big stick. Julio goes back running to me, helps me up and we keep on running.

Me and Julio get to this brick house. It had black fences with gates around the house. I saw bullet holes all around the fence but the bullets didn't go through. They were stuck in the fence. I was nervous because I didn't really know Julio, but at that moment I didn't know what to feel. I felt safe around his house and around him. It gave me a little vibe that I could trust him. We went to the house. He went to a room and he told me to wait for him on the couch. I sat there waiting for him. He came out with 2-3 guns and I'm shocked because I've never used a gun. Si sabes como usarla porque la vas a tener que usar para defenderte, dijo julio (DO you know how to use it your gonna have to use it at some point to defend yourself). No la he usado porque nunca pensé que la iba a tener que usar yo, i said(i haven't used one i never thought i would need to learn how or even use it). Entonces de dónde eres, dijo Julio (Where are you from). Yo soy de mexico, i said(im from mexico). ¿Por qué te vistes así?(why do you dress like that)? Yo nunca he visto ropa así, dijo Julio (Ive never seen clothes like that?). Es la moda del año porque no ves en tu teléfono,i said. (it's the trend of the year you can't see on ur

phone)¿No que es un teléfono?¿Qué tipo de moda es esa?de que año dijo julio.What is a phone? I don't know what that is, what type of trend, what year? del 2024 i said (Im from 2024) .ERES DEL AÑO 2024 COMO LLEGASTE AQUI ESTAMOS EN EL AÑO 1848!! Dijo julio (YOUR FROM 2024 HOW DID YOU GET HERE WHE ARE IN YEAR 1848!!. Julio still doesn't trust me but he's still confused and doesn't believe I'm from the future. He's still wondering whether he should trust me or not because he doesn't know me and he still doesn't believe I'm from the future. I show him everything I have on me. I show him my phone, my shoes and my clothes. While I showed him my phone I showed him the date. He was surprised because he has never seen a phone like that and I showed him that it said May 21 2024 while it was May 21 1848 . He was shocked by what I showed him because he has never seen things like that. And he was surprised that I came from that year. He was considering helping me out even more because he knew I was confused and where I came from because I wasn't there that same year. Its god that he considered helping me out because if he wasn't there i would've been dead then and there julio gave me some clothes to put on so than i would look like someone from his town so than no one from his town or village won't ask me where i'm from or threaten to kill me because of that. I changed into the outfit he gave me but then I felt weird because I've never worn anything like that. But it's super comfortable. I like the design. I remember I would see some people wearing this in mexico. Were ready to get out of the house because he knew people who could try to help me because I didn't know how to go back home or go back home. We leave and we hear a ton of gunshots because there's lots of people around the house but then Julio says it's his family and friends because he knows them all. I can't really trust it because I don't know the people

so I'm aware of my surroundings because I still don't know anyone or trust anyone because i havent met them. I'm still thinking whether i should trust julio or not because i don't know him that much all i know is that he's from yucatan hes in the hispanics side and that his name is julio. I'm still thinking and I'm still confused on how I got here. We end up finding Julio's friend that does some witchcraft stuff. I don't know if I should trust her thoughts because the person seems sketchy.”ya La encontramos” ,dijo julio (We found her). “Hola julio! Como estas y ella quien es?, dijo “???(”Hey Julio, how are you? Who is that)? Hola yo soy Gabriela mucho gusto " .hello i'm gabriela nice to meet you) Hola yo soy Maria”.(Hey i'm maria) Okay que ocupan? Dijo maria(Okay so what do you guys need?)“ Nosotros tenemos que regresar a Gabriela para ir a su casa en otro año y ella se ocupa de llegar. (We need to send her back to her year. She needs to get there soon.) We heard the mayan whistles, we got our guns ready. We get down to hide and we see the Mayan people. I shoot one of the people out of three that are walking towards us. Juliogets the other 2 guys that were there. Maria was in her cabin looking for what she needed to send me back. We didn't notice the other 2 guys that were sneaking up on us we see them but they were able to shoot me julio and maria and the people thats shooting them the 2 guys fall to the ground julio and maria go running to me they try to help me but im bleeding a lot. They try to help me out but they cant stop the bleeding they try to stop the blood they can't. My heart is going slower. I'm breathing less. Julio keeps on putting pressure on the gunshot but it's not helping. I don't have a heartbeat anymore. I'm not breathing and I die.
